

## How To Use:

1. Open packet
2. Sprinkle 1.5 grams of Animal Elements Canine formula onto food or into 16 oz. water –  
For optimal absorption of vitamins, it is recommended that Animal Elements Canine Formula be added to food.  
However, if it is anticipated that the dog will drink 16 oz. water at one sitting such as post-exercise dissolving in water is also an option.
3. Stir into food or water until dissolved

- Most dogs do not get all of the proper vitamins and minerals in their diet.
- Some dogs lose their vitamins and minerals easily.
- Most dogs will reject to swallowing vitamin pills.
- Our Hydroemulsion Technology helps to dissolve the vitamins in water or food making consumption of the vitamins and minerals painless while also hydrating your dog.

The easiest way to provide health to your best friend.

Quick-dissolving vitamins & minerals including the essential and often forgotten CoQ10.

## The Product

Animal Elements Canine Formula is a quick-dissolving, mild-tasting powder. Animal Elements Canine Formula contains 16 essential vitamins and minerals in a single product that is easily consumed and fast acting. Animal Elements Canine Formula contains Coenzyme Q10 which research shows:

- Is essential for energy production

- Directly augments cardiovascular health

### Animal Elements Canine Formula Improves –

- digestion
- coat appearance
- cardiovascular health
- immunity
- mental health
- and decreases the risk of cancer

## The Animal Elements Canine Formula Advantage

Animal Elements Canine Formula is safe, odorless, colorless and tasteless...

Other vitamin water leaves dogs with an unrealistic flavor of liquid which often inhibits a dog from drinking when the flavored water runs out.

Animal Elements Canine Formula is in powder form...

Other dog supplements such as pills are bulky and dogs often refuse to swallow them. Furthermore, it takes longer for nutrients from pills to be absorbed into the bloodstream than already dissolved nutrients

Animal Elements Canine Formula comes in convenient, lightweight packets which contain more vitamins than pre-mixed vitamin water.

Animal Elements Canine Formula can also be mixed in with dog food, and the convenient pre-measured packets allow owners to limit how much their pet receives per serving.

Animal Elements Canine Formula contains CoQ10 to help restore your best friend's CoQ10 healthy levels.
